Build Your Future with Practical **BIM** Skills

As an Autodesk Authorized Academic Partner, we help architects, civil engineers, mechanical engineers, electrical engineers, plumbing engineers, interior designers, and diploma/ITI graduates learn practical **BIM** (Building Information Modeling) skills needed to succeed in the global AEC (Architecture, Engineering, and Construction) industry.

BUILDING INFORMATION MODELLING COURSES

For
**Architects, Civil &
MEPF Engineers**

"Learn **BIM** from Experts, Work on
Real Projects, & Get Job-Ready!"

Why Choose **BIM** Cafe Learning Hub?

Industry-Focused Curriculum

Learn in-demand **BIM** skills with real-world project simulations, designed by experienced professionals.

1

Expert Instructors

Train with certified Autodesk professionals and **BIM** experts sharing the latest global standards and practices.

2

Flexible Learning Modes

Online: Learn anytime, anywhere

In-Person: Hands-on training in Ernakulam/Calicut

Blended: Combine both for a personalized experience

3

Guaranteed Placement Support

100% assured placement assistance, job resources, networking, resume tips, and interview preparation.

4

Affordable Payment Plans

You can pay fees in 3 installments or using credit card EMI options.

5

Core **BIM** Programs

For Architects

- Architectural BIM & Design Development (4 Months)
- Premium BIM Course (5 M)

For Civil Engineers

- Essential BIM Course: (BIM Essentials - 2 M)
- Professional BIM Course: (BIM Only Program - 4 M)
- Master BIM Course: (BIM + Interior Designing - 6 M)
- Premium BIM Course: (5 M)
- Structural Design Concepts & BIM (5 M)

For Mechanical, Electrical & Plumbing Engineers

- Revit MEPF Master Course (3 M)
- Electrical Designing & Electrical BIM Course (3 M)

Advanced & Short Term Courses

- Advanced Diploma in Interior Design & BIM (8 M)
- BIM Fast Track- 30 Days Intensive Training

Specialized Courses

- Global Architectural & Structural BIM Project Training (1 M)
- Global MEPF BIM Project Training (1 M)
- BIM Coordinator Professional Training (12-days)

On-Demand BIM Lectures

- Pre-Recorded Sessions

Our Online Courses

All the courses mentioned above are available in both Offline and Online modes with the same syllabus, duration, and project experience.

Online Batch Timings:

Morning: 9:30 AM - 12:30 PM

Evening: 7:30 PM - 10:30 PM

(Weekend batches also available)

First 5 Classes are absolutely free

Who Can Join?

BIM Cafe welcomes professionals & students from diverse backgrounds, including:

Architects (B.Arch / M.Arch)

Civil Engineers (BE / B.Tech/ME/M.Tech)

Mechanical Engineers (BE/B.Tech/ME/ M.Tech)

Electrical Engineers (BE / B.Tech / ME / M.Tech)

Diploma / ITI (Civil / Architecture)

Interior Designers (Any degree or diploma)

Beginners: No prior experience required – our courses start from the basics.

What Sets Us Apart?

Hands-On Training: Work on real-world project simulations using industry-standard tools like Revit, AutoCAD, and Navisworks.

Global Perspective: Backed by our parent company DDG **BIM** Services Pvt Ltd, our training aligns with international **BIM** standards, preparing you for opportunities worldwide.

Collaborative Learning Environment: Connect with peers and industry experts to boost your skills and network.

Sustainable Focus: Learn to contribute to a sustainable built environment through **BIM**'s efficient workflows.

Additional Benefits

- **Career Opportunities:** Explore roles like **BIM** Modeler, **BIM** Faculty, or **BIM** Coordinator with our industry partners.
- **Regular Events & Workshops:** Stay updated with the latest **BIM** trends through our **BIM** Knowledge Hub
